Title : 'Poverty - not an evil'

Precis : It is an accepted belief that only money can give happiness. In practical, there is more joy and happiness in humble cottages of poor. Children of rich people are pitied because they miss the true love and the feeling of unity and being cared which a poor child gets. Immortals have always born in poor families and will continue to do so, who sacrifice their life for the country.

- Conclusion

“ In the sky above ; in the oceans below ;
 on the earth in between , everywhere has gone
 triumphant chariot of science “ Life today is
 governed and conditioned by science ”

• Introduction :-

The modern age is the age of science . Science has given us many wonderful gifts . We use these things in our daily lives . We live in the age of science . We can see the wonders of science around us . It has made our life easier and

(P.T.O)

make more comfortable. It plays an important role in our daily lives. Science nothing, but a systematic way of knowledge and living. Modern world and society is not possible without science.

• Electricity :-

The greatest and most useful gift given by science is electricity. It has changed our life, society, culture completely. It is a great source of energy. It works like a magic. T.V., Radio, refrigerator, A.C. etc. for use of all these electricity is required. Electricity runs all our machines. In fact modern world is impossible without electricity.

• Communication :-

Science has linked up different parts of the world. It has done wonders in the field of communication. Telephone, telegram, telegraph, fax, mobile etc. are some of the contributions of

(P.T.O)

Recreation :-

Science has done wonders for our recreation. Today we have T.V., Radio, D.V.D., gramophone etc for our recreation. T.V. is one of the most amazing wonder of science. We can see the pictures of the whole world in the screen of television. We can see the whole world figures and listen their speeches through television. Radio also gives us music, news, information etc.

science. They have bought the world closer to us. We send messages from one corner of the world to another within seconds. They have conquered the space of distance and time. A part from sending messages, we can talk even we can see each other through these devices.

• Transport :-

Science has removed the distance of places. It has saved the time. Today we can travel 100 of miles within a short period through cars, bikes, trains, ships etc. Aeroplane can carry us to different parts of the world. We can also carry goods easily through these transports.

• Medical Science :-

Science has lessened human suffering. It has given eyes to blind, hearing to deaf and legs to lame. It has found out new ways of health and living. It has increased the joy of life. X-rays, Penicillin, biopsy, E.C.G., Sonography etc. are some of the most important wonders of medical science. Modern hospitals, private clinics and doctors can't go even a single day without all these.

• In education :-

Science has spread education among people. Today students can get information of the whole world while sitting at home through internet. Smart classes help a child to understand things more clearly. Printing press has also made books cheap and available.

• In Agriculture :-

Science has also done wonders in the field of agriculture. Today we can easily increase their production through chemical fertilizers, improved seed etc and can easily increase their income.

• Computers and Calculations :-

have brought a great change in the history of human civilization. Computers are rapidly used in every sector of life. Infact modern world can't go even a single day without computers.

• Curses of Science :-

Everything has two faces, science too has some dark sides. Making and production of atom bombs and other dangerous weapons are great threat to the existence of humanity in the world. These can destroy the world within seconds.

Due to machines employments of many labours are getting hampered. Due to this social insecurity is increasing.

Dependency of men on machines is increasing day by day.

Conclusion :-

Thus we have seen that science is a great helper to modern men. If properly used it can make the life of men happier. Truly it is because of science that man is called master of the world. Science has changed our life completely but we must know, if we misuse these things, they will ruin our lives.

"Science is a good servant, but a bad master".

'Advantages of Morning Walk'

Good health is very much important for a good life. It is also said that a good mind lives in a good body. So it is very important to ensure good health. In this aspect walking in morning contributes a huge role. It is best exercise a person can do. While walking in morning we get many advantages such as - we get fresh air to breathe, which refreshes our eyes and mind, we can enjoy nature's scenes while walking. We get relaxation, company of mother nature and also morning improves our digestion. Morning walk connects a person to his environment and mother nature which are the basis of human energy.
